👤 CAREER OBJECTIVE

Computer Science student passionate about building responsive web applications and learning full stack development using the MERN and Python stack. Skilled in JavaScript, React, and Python with hands-on experience building real-world projects and integrating APIs. Currently seeking a Frontend or Full Stack Developer internship to contribute and grow in a professional environment.

🧰 PROFESSIONAL EXPERIENCE

SkillCraft Technology (Remote), Web Development Intern

07/2025 – 07/2025 | Remote

- Built responsive web interfaces using **React, JavaScript, HTML, CSS**
- Collaborated using **Git & GitHub** in a team workflow
- Consumed **REST APIs** and displayed dynamic data in frontend
- Improved **UI responsiveness** and component reusability

🎓 EDUCATION

09/2023 – 08/2027

B.Tech in Computer Science & Engineering

Om Sterling Global University, Hisar

Expected Graduation: 2027

🧠 TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, C (Basics)

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js (Basics)

Database: MySQL, MongoDB (Basics)

Tools: Git, GitHub, REST APIs, VS Code

Core Concepts: Data Structures & Algorithms, Problem Solving

📁 PROJECTS

AI Study Planner Dashboard

- Built a responsive study productivity dashboard using React.js and Tailwind CSS with task management, subject tracking, analytics, Pomodoro timer, LocalStorage persistence, and an AI-inspired assistant interface to improve student learning workflows.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, React Router DOM, Framer Motion, LocalStorage

InternFlow – Job Application & Interview Preparation Tracker

- Built a responsive React-based job application tracking platform that helps students manage internship and job applications, track application status, monitor deadlines, and organize interview preparation.
- Implemented CRUD operations, search and filtering, role-based interview preparation checklists, progress tracking with skill completion, dark/light mode, and LocalStorage-based data persistence using React Context API and React Router.
- **Tech Stack:** React.js, JavaScript, CSS3, React Router, Context API, LocalStorage, Git, GitHub Pages.

🧩 ACHIEVEMENTS

- Completed Web Development Internship (2025)
- Built multiple React-based real-world projects
- Actively solving Data Structures & Algorithms problems
- Strong interest in Full Stack & Backend development

🧩 AVAILABILITY

- Available for Summer 2026 Internship | Open to Remote / On-site (Gurugram)
